You take no chances with FRUIT OF THE LOOM

You need spend no more

—but you should eliminate ALL doubts about your most essential food

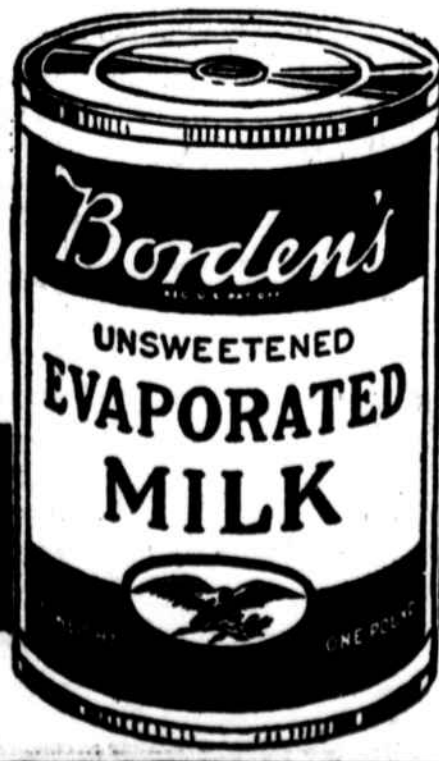

WOULD any thinking mother in a family use milk about which she had doubts?

Borden's Evaporated Milk is a milk which is produced with utmost attention to both safety and nutritive value. The covering of the cans of milk with clean cloths to exclude every particle of dust, while the milk is en route to the condensary—precautions such as special veterinary inspection of Borden herds—special care in handling, throughout the evaporating process—final testing before the finished product is sent to your grocer—the sum total of these and other safeguards makes Borden's Evaporated Milk one on which you can always depend.

Pure country milk with the cream left in

Borden's Evaporated Milk is pure country milk—delicious for both coffee and cooking. It is milk alone, with the excess water removed. It is sterilized and sealed in tight containers which assure you of its absolute purity.

Your grocer wants to please his customers, so he offers you Borden's at the usual price for standard brands, even though he sometimes pays more for it, himself. Get Borden's Evaporated Milk and eliminate ALL your doubts.

Husband, Missing From Richmond, Sought Here

FRANK L. CARROLL, three weeks ago for St. Paul, Minn. He wrote his wife from this city and has not been heard from since. Mrs. Carroll came to The Times office yesterday and asked the Bureau of Missing Persons to help locate her husband. He is thirty-four years old, 5 feet 6 inches tall, and weighs 130 pounds.

FOUR SWEEP OVERBOARD; THREE RETURNED BY WAVE

BOSTON, Jan. 18.—How four of his crew was swept overboard by a giant wave during the storm of last Wednesday and three of them were returned to the deck by the same wave was told by Capt. Edward Fog, of the Boston fishing schooner Athena, when he brought his vessel into port last night. The fourth sailor was drowned. When the vessel was making for Provincetown to escape the storm, Lendley Malone, Frank Purdy, James E. Frazier and Thomas Merchant were dressing fish. A great sea swept over the vessel and carried all four at least fifty feet from the vessel, the captain said. The same wave brought Malone, Purdy and Frazier back and deposited them on deck, but Merchant was caught by a second wave and carried away.

PROMISES ROAD IMPROVEMENTS TO CLARENDON

Supervisor DeLashmott Says Military Road Will Be Extended From Hatfield.

CLARENDON, Va., Jan. 17.—According to an announcement made yesterday by Supervisor Thomas DeLashmott an improvement of considerable import will be started shortly with the extension of Military road into Clarendon.

The announcement came in the form of a letter to Recording-Secretary Keefe, of the Clarendon Citizens Association. At the last meeting of the Citizens Association Supervisor DeLashmott was severely criticised by McCullis for his failure to improve Taylor avenue after a specific promise to do so. The association then passed a resolution asking information from the supervisor as to when the repairs would be made.

In his letter to Secretary Keefe Mr. DeLashmott stated that the repairs had held up pending the completion of Military road from Hatfield to Taylor avenue, from which point the avenue will be practically reconstructed through Clarendon. This improvement will give motorists a splendid straight road from Hatfield into the center of the community.

Both President Taylor of the Citizens Association and Secretary Keefe expressed much gratification over the fact that Supervisor DeLashmott had taken cognizance of the organization's resolution and quickly promised the requested repairs.

A meeting of the Clarendon Fire Department will be held in the engine house Thursday night. Arrangements will be made to house the new fire apparatus.

According to advice received from Richmond the Virginia supreme court will review the petition of Clarendon citizens who are seeking incorporation within a week or ten days.

The Latest Word from Paris By Marie Suzanne

(Copyright, 1921.)

PARIS, France. MONKEY fur, in a moment of genius, swirls itself into shaggy little rosettes over the back of a slender black panne velvet cape—a cape that is a worthy part of a three-piece costume. A cape, moreover, that is otherwise straight from its fur collar to irregular points which become fuller as they descend and reach their greatest length at the sides. The frock that makes up the other two-thirds of the hugely successful whole is similarly straight, using the round neck-line and a low-placed girdle that has posed over it at one side a cocarde of the monkey fur.

PARIS has combined, at separate times, different materials and different colors. But the very essence of smartness lies in a tailor that uses two materials in two colors at the same time, and links them with an expanse of fur. To be exact, the coat is of red cloth buttoning down the center front and having as trimming softly glowing black caracul. The skirt, then, is of black velvet and has nothing to identify it with the coat, except the sufficient reason that a French couturier decided they should be worn together. It is quite possible that gowns for the early spring may expand this feature.

STUDENTS' PLAY AT 'STRIP POKER' COSTS PROF. JOB

Teacher in New Jersey High School Denies Charges and Threatens Fight.

NEW YORK, Jan. 18.—Because several of his boy students, whom he was entertaining in his home, indulged in a game of "strip" poker, L. Paul Miller, professor of physics and chemistry in the Newton, N. J., High School, has lost his job.

Staging the poker party was one of thirteen charges on which he was tried by the board of education. Prof. Miller yesterday denied he had participated in the game. He explained that while he was acting as host to his students, several hid themselves to another room and were playing "strip" when he discovered them. He promptly stopped it.

The other charges included tardiness and being absent from assembly, to which he pleaded guilty.

The board reprimanded him on the two charges to which he pleaded guilty and dismissed the others. Whereupon ten of his fellow-teachers, six of them women, threatened to sign if he were not dismissed. They called a meeting of the taxpayers of the town and caused such a hubbub that the board ordered Miller's dismissal.

Miller, who is a graduate of Pennsylvania State College and Columbia, yesterday declared jealousy on the part of several of the teachers was back of what he characterized as the trumped-up charges.

Miller said he intends to go to court to fight for reinstatement, just for vindication.

Helps to break up colds When you feel a cold coming on, put plenty of Sloan's Liniment on your throat, chest and back just before going to bed. It starts warm, singling circulation that keeps the cold from "settling" and helps break it up, while its healthy vapors soothe and clear the lungs and throat. Don't rub—don't bandage—it penetrates.

EXPERT TO GIVE ANALYSIS AT 'Y' ON HOME COSTS

Mrs. Edith Salisbury Will Outline Household Financial Management.

The all-important analysis of expenses preparatory to actually drawing up a budget for household and individual financial management, will be outlined by Mrs. Edith C. Salisbury, professor of Home Economics, at a meeting at the Y. M. C. A. tonight—part of the Washington program in observance of "Thrift Week."

Lectures throughout the school system will be continued through the remainder of the week, today's schedule including addresses at Central High, Western High and Technical High School. The prosperity message will also be carried to the Terminal Y. M. C. A. members, employees of Lansburgh and Brother, and members of the South Washington Citizens' Association.

"I want to urge every person living or employed in the District to start at once to build for himself the ten steps to individual prosperity," said E. C. Graham, City Club president and chairman of the District Thrift Committee.

"The building of these steps calls for no money—Thrift Week only asks that people give thought to and make plans for getting ahead in life. All the erection of these ten steps involves is the will power to work earnestly like a true American."

Thomas Goodwin, A. Stuart King and Capt. D. W. Robertson have been added to the corps of speakers. Mr. King and Capt. Robertson will address the boys' department of the Y. M. C. A., and Mr. Goodwin will address the West End Citizens' Association.

TRAVELERS' AID SOCIETY HELPS 150 ON LONG TRIP

Trend of Emigrants Arriving in U. S. Mostly Toward Pacific, Officials Say.

Fifteen foreigners en route to California were taken in charge Monday by representatives of the Travelers' Aid Society at the Union Station. They were Greeks, Italians, Slovaks and Germans. After examining their papers and passports, the society's representatives made the proper train connections for the party, advised them how best to protect themselves, and then placed them on a train bound for the West. Then the Travelers' Aid Society in California was notified by wire.

"More emigrants are bound for California than any other part of the country," said Mrs. W. F. Van Riper, executive secretary of the Washington society. "The strange part is that our own immigration is now coming East, while the immigration from Europe is to the West—where they all seem to prosper. Between forty and fifty foreigners pass through the Union Station each day, and they are all, or nearly all, bound for California."

Nearly all the immigration for the West passes through Washington, and it is up to the Washington Travelers' Aid Society to see that it is properly handled. In New York the society's representatives have command of twenty-six languages, but Washington is not so fortunate. However, it is seldom that the society cannot meet the demands.

The Washington Travelers' Aid Society is maintained by voluntary contribution on the part of Washington citizens. The terminal company, recognizing the tremendous public service given by the society, has contributed \$1,000 to its work. Several more thousands of dollars, however, are necessary to keep the work at its present high rate of efficiency, and Mrs. Van Riper is confident that the need will be met by the public spirited citizens of the city.

SPANKED BY MOTHER; GIRL ATTEMPTS SUICIDE

WORCESTER, Mass., Jan. 18.—Inability to get work and a spanking by her mother for "skipping" school were reasons given by Margaret Kellier, fifteen years old, for an attempt at suicide when she drank two ounces of creolin.

The girl's life was saved when rolling in agony on the floor of the kitchen in the home of her brother, James Kellier, she attracted the attention of occupants of another flat by rapping on a pipe. She is in a critical condition at City Hospital. Margaret left home at the usual time for her classes, her mother said, but did not attend. Mrs. Kellier telephoned the school and learned the girl had not been at the building. On Margaret's return home her mother accused her of playing hooky and punished her. Mrs. Kellier told the officers her daughter had been placed on probation in district court about a year ago after being charged with being a stubborn child because she had "skipped" school.

MOTHER!

Your Child's Bowels Need "California Fig Syrup"

Hurry mother! Even a sick child loves the "fruity" taste of "California Fig Syrup" and it never fails to open the bowels. A teaspoonful today may prevent a sick child tomorrow. If constipated, bilious, feverish, fretful, has cold, colic, or if stomach is sour, tongue coated, breath bad, remember a good cleansing of the little bowels is often all that is necessary.

Ask your druggist for genuine "California Fig Syrup" which has directions for babies and children of all ages printed on bottle. Mother! You must say "California" or you may get an imitation fig syrup—Advertisement.
